- 1) Acara Public Expose Live 2022 yang diselenggarakan oleh PT Bursa Efek Indonesia (BEI), PT Kliring Penjaminan Efek Indonesia (KPEI), dan PT Kustodian Sentral Efek Indonesia (KSEI) dalam rangka memperingati 45 Tahun Diaktifkannya Kembali Pasar Modal Indonesia, Public Expose yang disiarkan secara real time melalui fasilitas webinar.
 - 2) Paparan Publik juga dihadiri oleh:
 - Manajemen Perseroan
 - Direktur : Ang Andri Pribadi
 - Komisaris Utama : Surja Hartono
 - Sekretaris Perusahaan : Lidiana Widjojo
 - Peserta
 - Paparan Publik : 347 peserta
 - Press Conference : 16 peserta
 - 3) Materi dipresentasikan oleh Lidiana Widjojo, Sekretaris Perusahaan.
 - 4) Sesi Tanya Jawab oleh Ang Andri Pribadi, Direktur Keuangan.
 - 5) Public Expose Perseroan ditutup dengan konferensi pers secara online yang dihadiri oleh wartawan media cetak, media online, dan media elektronik.
 - 6) Partipasi Perseroan pada acara ini diperhitungkan sebagai pengganti dari kewajiban Public Expose Perseroan Tahunan 2022.
- 1) The Public Expose Live 2022 event organized by Indonesia Stock Exchange (IDX), PT Kliring Penjaminan Efek Indonesia (KPEI), and PT Kustodian Sentral Efek Indonesia (KSEI) to commemorate 45 Years of Reactivation of the Indonesian Capital Market that will be broadcasted real time through webinar facility.
 - 2) The Public Exposures was attended by:
 - Company' Management
 - Director : Ang Andri Pribadi
 - President Commissioner : Surja Hartono
 - Corporate Secretary : Lidiana Widjojo
 - Participant
 - Public Expose : 347 participants
 - Press Conference : 16 participants
 - 3) Public Expose Material presented by Lidiana Widjojo, Corporate Secretary.
 - 4) Q&A session by Ang Andri Pribadi, Finance Director.
 - 5) The Company's Public Expose was ended with an online press conference attended by journalists from print media, online media, and electronic media.
 - 6) The participation of the Company in this event would be considered in lieu of covered Annual Public Expose of the Company for year 2022.

A. Berikut dibawah ini adalah ringkasan dari sesi tanya jawab pada Paparan Publik, yaitu:

1. Bp. Paskalis

- (a) Bagaimana prospek filter HVAC/HEPA? Dari empat sektor filter HVAC/HEPA yang disajikan di slide PPT, sektor mana yang akan difokuskan oleh SMSM?

Tanggapan:

Terkait HVAC Filter, saat ini Perseroan berfokus pada Gas Turbin System (GTS) untuk Pembangkit Tenaga Listrik yang mana mencatatkan penjualan yang cukup baik.

A. The summary of the Q&A session on Public Expose, as below:

1. Bp. Paskalis

- (a) How the prospects for HVAC/HEPA filters? Of the four HVAC/HEPA filter sectors presented in the PPT slide, which sector will SMSM focus on?

Response:

Currently, the Company is focusing on HVAC for Gas Turbine System (GTS) for Power Plants and records slightly good sales. Furthermore, the Company will also focus on HVAC for Non Gas

Head Office : Wisma ADR, Jl. Pluit Raya I No. 1, Jakarta 14440 - Indonesia
 Factory 1 : Jl. Kapuk Kamal Raya No. 88, Jakarta 14470 - Indonesia
 Factory 2 : Komplek Industri ADR, Desa Kadujaya, Curug, Tangerang 15810 - Indonesia
 Email : adr@adr-group.com • corporate@adr-group.com • export@adr-group.com

• Phone : (62-21) 661 0033 - 669 0244 • Fax : (62-21) 669 6237
 • Phone : (62-21) 555 1646 (Hunting) • Fax : (62-21) 555 1905
 • Phone : (62-21) 598 4388 (Hunting) • Fax : (62-21) 598 4415
 • sales.marketing@adr-group.com • Web : www.smsm.co.id

Selanjutnya Perseroan juga akan berfokus terhadap HVAC untuk Non Gas Turbine System (Non GTS), yang digunakan pada rumah sakit, farmasi, shopping center (mall), gedung perkantoran dan lain sebagainya.

Turbine System (Non GTS), which is used in hospitals, pharmaceuticals, shopping centers (malls), office buildings and the others.

- (b) Apakah pengembangan produk di sektor HVAC/HEPA dan Filter EV melalui R&D internal atau melalui akuisisi?

- (b) Is the product development in the HVAC/HEPA and EV Filter sectors through internal R&D or through acquisitions?

Tanggapan:

HEPA filter berkaitan dengan filter udara untuk filter kabin yang berada di dalam unit kendaraan, ataupun HEPA filter untuk Air Purifier yang banyak ditemui pada perumahan atau perkantoran.

Response:

HEPA filter is related to air filters for cabin filters in vehicle units, or HEPA filters for Air Purifiers that are commonly found in residential or offices.

- (c) Dari biaya bahan baku pada semester kedua 2022 sebesar 1.069 miliar, berapa persen biaya yang berasal dari Baja dan berapa persen biaya yang berasal dari Kertas?

- (c) From the cost of raw materials in the half year 2022 of 1,069 billion, what percentage of the cost comes from Steel and what percentage of the cost comes from Paper?

Tanggapan:

Untuk saat ini Perseroan belum dapat menyajikan pembagian persentase biaya yang berasal dari baja dan kertas. Namun sebagai informasi, bahwa bahan baku filter, yaitu terdiri dari plat baja (*steel plate*) dan media kertas (*paper*). Secara struktur biaya, sebanyak 71% yaitu untuk bahan baku, 19% untuk upah buruh langsung dan 10% nya adalah untuk biaya pabrikasi.

Response:

For now, the Company has not been able to presented the percentage of costs derived from steel and paper. But for information, that filter's raw material, which consists of steel plate and paper media (paper). In terms of cost structure, as much as 71% is for raw materials, 19% is for direct labor wages and 10% is for manufacturing costs.

- (d) Siapakah kompetitor filter *aftermarket* terkuat di pasar domestik?

- (d) Who are the strongest *aftermarket* filter competitors in the domestic market?

Tanggapan:

Pasar domestik Perseroan cukup *fragmented*, mengingat Indonesia memberikan kebebasan untuk dapat melakukan kegiatan impor atas filter dengan biaya bea masuk, yaitu 0%, sehingga mendorong Perseroan bersaing secara global di pasar lokal. Karena pasar yang *fragmented*, maka Perseroan tidak dapat menemukan kompetitor secara *head to head*.

Response:

The Company's domestic market is sort of *fragmented*, considering that Indonesia provides the licence to be able to carry out import activities on filters with % of import duty fees, thus drive the Company compete globally in the local market. Due to the *fragmented* market, the Company was unable to find competitors *head to head*.

2. Bp. Antonius Budianto

Apa antisipasi SMSM terhadap kendaraan EV mengingat kendaraan EV tidak banyak memerlukan penggantian *sparepart* yang diproduksi SMSM?

Tanggapan:

Perseroan telah melakukan antisipasi terhadap EV sejak lama sekitar 10 tahun lalu, yaitu dengan melakukan *shifting* dan berfokus terhadap *heavy equipment* dan *commercial*, dibandingkan dengan *Passenger Cars*. Saat ini Perseroan telah memiliki 65 *part numbers* filter untuk *Electric Vehicle* (EV), yaitu seperti *transmission filter* untuk *suction* dan *pressure filters*, *Cooling Air Filter* untuk *battery ventilation system*, filter kabin dan beberapa kendaraan yang menggunakan pre-filter, seperti yang banyak ditemui pada Air Purifier. Selain filter, *Heat exchanger* merupakan produk utama Perseroan yang juga dibutuhkan oleh EV dan berfungsi menyerupai *cooling system* untuk mendinginkan baterai. Kesimpulannya, EV juga membutuhkan filter dan masih banyak produk yang dapat diproduksi oleh Perseroan untuk kebutuhan EV.

3. Bp. Axel Bramantyo

(a) Apakah produksi filter untuk EV menggunakan mesin-mesin *existing* atau harus berinvestasi pada mesin baru? Jika memerlukan mesin baru, berapa capexnya?

Tanggapan:

Perseroan menggunakan mesin yang sama untuk memproduksi 65 part-number filter *Electric Vehicle* (EV) dan tidak ada investasi tambahan untuk memproduksi filter EV.

(b) Bagaimana efek perang antara Rusia - Ukraina terhadap penjualan perseroan, mengingat porsi penjualan ke Eropa terutama Rusia cukup besar?

Tanggapan:

Perang antara Rusia dengan Ukraina memberikan dampak yang cukup negatif

2. Bp. Antonius Budianto

What is SMSM's anticipation of EV vehicles considering that EV vehicles do not require much replacement of spare parts produced by SMSM?

Response:

The company has been anticipate EV's for a long time about 10 years ago, i.e. by shifting and focusing on heavy equipment and commercial, compared to passenger cars. Currently, the Company has 65 part numbers filters for *Electric Vehicles* (EV), such as *transmission filters* for *suction* and *pressure filters*, *Cooling Air Filters* for *battery ventilation systems*, *cabin filters* and some vehicles that use pre-filters, as is commonly found in Air Purifiers. In addition to filters, *heat exchangers* are the Company's main products that are also needed by EV's and with function similar to *cooling batteries*. In conclusion, EV's also require filters and there are still many products that can be produced by the Company for EV needs.

3. Bp. Axel Bramantyo

(a) Does the production of filters for EV's use existing machines or should they invest in the new engines? If you need a new machine, how much is the capex?

Response:

The Company uses the same engine to produce 65 electric vehicle (EV) filter part-numbers and there is no additional investment to produce EV filters.

(b) How will the effect of the war between Russia - Ukraine on the company's sales, considering that the share of sales to Europe, especially Russia, is quite large?

Response:

The war between Russia and Ukraine had a fairly negative impact, especially in the Q1-

Head Office : Wisma ADR, Jl. Pluit Raya I No. 1, Jakarta 14440 - Indonesia

terutama pada kuartal 1 tahun 2022, dimana Perseroan mengalami kesulitan dalam melakukan pengiriman barang ke Rusia dan proses pembayaran dari Rusia. Namun pada kuartal 2 tahun 2022, kondisi tersebut sudah cukup membaik hingga kuartal 3 tahun 2022, Perseroan mendapatkan efek positif atas terjadinya perang antara Rusia dan Ukraina, yaitu meningkatnya permintaan produk ke Rusia, hal ini mungkin berkaitan dengan kesulitan suplai dari Eropa dan wilayah sekitarnya. Perseroan berharap peningkatan permintaan ini akan terus berlanjut ke depannya.

2022, in which the Company faced difficulties in shipping goods to Russia and the payment process from Russia. However, in the Q2-2022, this condition has improved enough until the Q3-2022, the Company get positive effect on the war between Russia and Ukraine, i.e. there was an increase in demand for products to Russia, this may be related to supply difficulties from Europe and its surrounding areas. The Company hopes that this increase in demand will continue in the future.

4. Bp. Daniel

- (a) Bagaimanakah cara Perusahaan menangani resiko biaya operasional ditengah ketidakpastian bisnis?

Tanggapan:

Cara Perseroan untuk menangani ketidakpastian biaya operasionalnya, yaitu dengan melihat kepada struktur biaya terbesar yang terletak pada bahan baku sebesar 71%, biaya tenaga kerja sebesar 19% dan biaya pabrikasi sebesar 10%. Dalam menjalankan kegiatan operasionalnya, Perseroan akan berfokus terhadap biaya tenaga kerja dan biaya pabrikasi. Pada aspek biaya tenaga kerja, Perseroan melakukan beberapa perbaikan dengan otomatisasi di dalam lini produksi. Selain itu, Perseroan juga melakukan *Cost Reduction Program* dan memberikan *reward* bagi karyawan yang melakukan perbaikan-perbaikan tersebut.

- (b) Pada kategori dan segmen manakah, bisnis yang memiliki pendapatan terbesar di tahun ini?

Tanggapan:

Untuk kategori dan segmen dengan pendapatan terbesar, yaitu berasal dari produk filter dengan kontribusi sekitar 70%, yang merupakan produk utama Perseroan.

4. Bp. Daniel

- (a) How does the Company handle the risk of operating costs amid business uncertainty?

Response:

The Company's way to handle the uncertainty of its operating costs is by looking at the largest cost structure located in raw materials at 71%, labor costs at 19% and manufacturing costs at 10%. In carrying out its operational activities, the Company will focus on labor costs and manufacturing costs. In the aspect of labor costs, the Company made several improvements with automation in the production line. In addition, the Company also conducts a *Cost Reduction Program* and provides rewards for employees who make these improvements.

- (b) In which category and segment, the business that has the largest revenue this year?

Response:

For the category and segment with the largest revenue, it comes from filter products with a contribution of around 70%, which is the Company's main product.

5. Bp. Erman Sumirat

- (a) Bagaimana strategi SMSM untuk meningkatkan CAGR Sales dan Income?

Tanggapan:

Untuk dapat terus meningkatkan CAGR Sales, Perseroan tetap berfokus terhadap kegiatan ekspor, dimana saat ini sekitar 70% dari penjualan Perseroan dari pasar ekspor. Sedangkan untuk CAGR Income, Perseroan akan tetap terus berfokus dalam mempertahankan net profit margin dengan melakukan berbagai macam hal termasuk salah satunya yang utama, yaitu otomatisasi dan melakukan R&D dalam menggunakan bahan baku dengan harga yang lebih baik tanpa menurunkan kualitasnya.

- (b) Apakah ada strategi untuk merubah komposisi portfolio market? Apakah penjualan filter untuk Electric Vehicle (EV) telah sukses di luar negeri, sehingga bisa menjadi engine growth yang baru?

Tanggapan:

Untuk strategi, Perseroan akan tetap berfokus terhadap kegiatan ekspornya. Hal lain yang dapat dilakukan oleh Perseroan adalah bagaimana menemukan distributor yang lebih baik di pasar ekspor, mengingat Perseroan sangat bergantung terhadap pihak ketiga. Disamping hal tersebut, Perseroan akan terus melakukan vertical integrated acquisition di level distributor yang dilakukan dengan sangat selektif, seperti yang pernah Perseroan lakukan sebelumnya di Thailand, Malaysia dan Australia.

- (c) Pasar dan produk manakah yang potensial di masa depan?

Tanggapan:

Terkait penjualan filter untuk EV, populasinya masih sangat kecil yaitu 1% dari populasi di dunia. Saat ini Perseroan masih berfokus terhadap penjualan di aftermarket. Kedepannya Perseroan berkeyakinan, bahwa setelah populasi EV menjadi cukup besar, maka produk filter EV Perseroan yang telah dirilis

5. Bp. Erman Sumirat

- (a) What is SMSM's strategy to increase sales and income CAGR?

Response:

To be able to continue to increase CAGR Sales, the Company remains focused on export activities which currently approximately 70% of the Company's sales are from the export market. As for CAGR Income, the Company will continue to focus on maintaining net profit margin by doing various things including one of the main ones, i.e. automation and R&D in to use materials at better prices without reduce quality.

- (b) Is there a strategy to change the composition of the portfolio market? Has the sales of filters for EV's been successful in overseas, so that it can be a new engine growth?

Response:

For its strategy, the Company will continue to focus on its export activities. Others that the Company can do is how to find better distributors in the export market, considering that the Company is very dependent on third parties. In addition, the Company will continue to carry out vertical integrated acquisitions at the distributor level which are carried out very selectively, as the Company has done before in Thailand, Malaysia and Australia.

- (c) Which markets and products have potential in the future?

Response:

Regarding the sale of filters for EV's, the population is still very small, which is 1% of the population in the world. Currently, the Company is still focusing on sales in the aftermarket. In the future, the Company believes that after the EV population becomes large enough, the Company's EV filter products

sekitar 65 part-number akan bertumbuh dan memiliki prospek yang baik kedepannya.

that have been released approximately 65 part-numbers will grow and have good prospects in the future.

6. Bp. Panji Mursyidan

- (a) Bagaimana *positioning* filter Sakura dalam persaingan di pasar global?

Tanggapan:

Untuk *positioning* filter Sakura, Perseroan berada di middle dengan reasonable price dan kualitas yang baik, mendekati kualitas produk-produk *branded*. Karena itu dengan posisi ini, filter SAKURA tentu lebih tahan krisis dan ini terbukti dimana Perseroan sudah menghadapi berbagai periode krisis bahkan dapat bertumbuh disaat krisis.

- (b) Apa saja strategi manajemen untuk mengembangkan *brand equity value* filter Sakura agar lebih bersaing di pasar global?

Tanggapan:

Strategi manajemen untuk mengembangkan *brand equity value* dilakukan oleh Perseroan secara intensif, dimana saat ini merek Sakura telah terdaftar ke lebih dari 100 negara di dunia. Perseroan akan terus melakukan kegiatan promosinya untuk memperkenalkan produk dengan merek Sakura agar lebih mendunia. Selain itu, Perseroan juga aktif dalam mengikuti berbagai macam pameran, seperti yang saat ini sedang dilakukan yaitu pameran automechanica di Frankfurt. Dengan demikian, SMSM berharap Sakura dapat dikenal di pasar global.

- (c) Jika suatu saat nanti alat berat sudah bertransformasi secara total menjadi *electric heavy equipment*, apakah manajemen meyakini masih ada peluang di sana?

Tanggapan:

Perseroan melihat transformasi *heavy equipment* menjadi *electric* masih butuh waktu panjang dibandingkan dengan EV. Untuk

6. Bp. Panji Mursyidan

- (a) What is the positioning of Sakura filters in the competition in the global market?

Response:

For sakura filter positioning, the Company is in the middle with reasonable price and good quality, close to the quality of branded products. Therefore, with this position, the SAKURA filter is certainly more crisis-resistant and this is proven where the Company has faced various periods of crises and can even grow during crises.

- (b) What are the management strategies to develop Sakura's brand equity value filter to be more competitive in the global market?

Response:

The management's strategy to develop brand equity value is carried out by the Company intensively, in which currently the Sakura brand has been registered to more than 100 countries in the world. The Company will continue to carry out its promotional activities to introduce products under the Sakura brand to make it more global. In addition, the Company is also active in participating in various exhibitions, such as what is currently being done, i.e. the automechanica exhibition in Frankfurt. Thus, SMSM hopes that Sakura can be known in the global market.

- (c) If one day the heavy equipment has completely transformed into electric heavy equipment, does the management believe there is still an opportunity there?

Response:

The company sees that the transformation of heavy equipment into electric still takes a long time compared to EV's. For the EV population

Head Office : Wisma ADR, Jl. Pluit Raya I No. 1, Jakarta 14440 - Indonesia
Factory 1 : Jl. Kapuk Kamal Raya No. 88, Jakarta 14470 - Indonesia
Factory 2 : Komplek Industri ADR, Desa Kadujaya, Curug, Tangerang 15810 - Indonesia
Email : adr@adr-group.com • corporate@adr-group.com • export@adr-group.com

• Phone : (62-21) 661 0033 - 669 0244 • Fax : (62-21) 669 6237
• Phone : (62-21) 555 1646 (Hunting) • Fax : (62-21) 555 1905

• sales.marketing@adr-group.com • Web : www.smsm.co.id

populasi EV sendiri masih sangatlah kecil, yaitu 1% dari populasi di dunia. Sedangkan untuk *critical time* berdasarkan data yang diperoleh Perseroan, bahwa pada tahun 2035 akan terjadi penjualan EV lebih tinggi daripada ICE (*Internal Combustion Engine*) dan pada tahun 2045 akan terjadi populasi EV yang lebih besar daripada ICE. Sehingga Perseroan melihat bahwa transformasi *heavy equipment* menjadi *electric* akan lebih lama lagi, karena *heavy equipment* umumnya digunakan pada *remote-area* yang jauh dan juga membutuhkan ukuran baterai yang lebih besar. Sepanjang teknologi baterai masih berada pada kondisi saat ini, maka transformasi *electric heavy equipment* masih sangatlah lama. Disamping itu, serupa dengan *electric vehicle*, *electric heavy equipment* juga membutuhkan filter.

itself, it is still very small, which is 1% of the world's population. As for critical time based on data obtained by the Company, that in 2035 there will be higher EV sales than ICE (*Internal Combustion Engine*) and in 2045 there will be a larger EV population than ICE. So the Company sees that the transformation of heavy equipment into electric will be even longer, because heavy equipment is generally used in remote areas and also requires a larger battery size. As long as battery technology is still in its current state, the transformation of electric heavy equipment is still very long. In addition, similar to electric vehicles, electric heavy equipment also requires a filter.

B. Berikut dibawah ini adalah ringkasan dari sesi tanya jawab pada Press Conference, yaitu:

B. The summary of the Q&A session on Press Conference, as below:

1. Bp. Fill - Kontan

1. Bp. Fill - Kontan

(a) Apa Faktor pendorong kinerja Perseroan di semester I 2022?

(a) What are the driving factors for performance in the 1H-2022?

Tanggapan:

Faktor pendorong kinerja Perseroan di semester I 2022, yaitu bertumbuhnya pasar lokal dan pasar ekspor. Perseroan berfokus pada kedua pasar, dimana komposisinya untuk ekspor mencapai 63% dan lokal mencapai 37%. Pertumbuhan terlihat cukup signifikan pada lokal, yang disebabkan oleh membaiknya kondisi domestik dari pandemi COVID-19 dan pembangunan di lokal yang masih berjalan dengan baik, sehingga permintaan pasar masih cukup tinggi.

Response:

The driving factor for the Company's performance in the 1H-2022 i.e, the growth of the local market and the export market. The Company focuses on both markets, which is the composition for exports reaches 63% and local reaches 37%. The growth is seen quite significantly in the local area, which is due to the improvement in domestic conditions from the COVID-19 pandemic and local development that is still running well, so market demand is still quite high.

(b) Bagaimana target utilisasi hingga tutup tahun?

(b) What is the utilization target until the end of the year?

Tanggapan:

Tingkat utilisasi Perseroan saat ini masih cukup rendah dan diperkirakan sekitar 60-65% hingga tutup tahun. Hal ini disebabkan karena

Response:

The Company's utilization rate is currently still quite low, which is predicted 60-65% until the end of the year. This is because the Company

Perseroan melakukan *shifting* dari otomotif ke *heavy equipment* dengan value yang lebih tinggi. Perseroan tidak berfokus pada produksi secara kuantitas, melainkan berfokus pada produksi secara *value*. Oleh karena itu, tingkat utilisasi proses produksi Perseroan tentunya tidak akan bertumbuh terlalu banyak. Hal ini akan memberikan keuntungan bagi Perseroan, karena tidak membutuhkan investasi baru untuk fasilitas produksi.

shifts from automotive to heavy equipment with a higher value. The Company does not focus on production in quantity, but focuses on production in value. Therefore, the utilization rate of the Company's production process will certainly not grow too much. This will provide benefits for the Company, because it does not require new investments for production facilities.

2. Ibu Melani - Liputan 6.com

- (a) Melanjutkan pembahasan mengenai *Capex* sebelumnya, digunakan untuk apa saja realisasi belanja modal sebesar Rp61 miliar hingga Semester I 2022?

Tanggapan:

Realisasi belanja modal sebesar Rp61 miliar pada semester I 2022 digunakan untuk *regular capex*, seperti perbaikan dan peremajaan pada mesin-mesin. Disamping itu, Perseroan juga melakukan otomatisasi yang kedepannya akan memberikan dampak positif, baik dari segi biaya maupun dari segi efisiensi produksi.

- (b) Berapa belanja modal untuk tahun depan dan kira-kira akan digunakan untuk apa saja dan dananya berasal darimana?

Tanggapan:

Belanja modal untuk tahun depan, kurang lebih sama seperti pada belanja modal di tahun ini, yaitu ± 100 miliar per tahun. Tahun depan, Perseroan akan menggunakan belanja modal tersebut untuk peremajaan mesin-mesin sebagai *regular capex* dan otomatisasi yang akan terus dilanjutkan. Sedangkan untuk dana yang digunakan berasal dari *internal cash flow* Perseroan yang cukup baik, dimana saat ini induk Perseroan yaitu SMSM juga hampir tidak memiliki hutang bank sehingga tidak membutuhkan pinjaman dari pihak lain.

2. Ibu Melani - Liputan 6.com

- (a) Continuing the discussion about the previous *Capex*, what is the realization of capital expenditure of IDR61 billion until the 1H-2022?

Response:

The realization of capital expenditure of IDR61 billion in the 1H-2022 was used for regular capex, such as repairs and rejuvenation of machines. In addition, the Company also conduct automation which in the future will have a positive impact, both in terms of cost and in terms of production efficiency.

- (b) What is the capital expenditure for the next year and roughly what will it be used for and where does the funds come from?

Response:

Capital expenditure for the next year is approximately the same as in the capital expenditure in this year, which is ± 100 billion per year. Next year, the Company will use the capital expenditure for the rejuvenation of machines as regular capex and automation which will continue. As for the funds used, it comes from the Company's internal cash flow which is quite good, where currently the Company's parent, SMSM also has almost no bank debt so it does not require loans from other parties.

(c) Bagaimana strategi Perseroan untuk mencapai target di akhir tahun 2022 dan 2023?

Tanggapan:

Secara konservatif, pada tahun ini Perseroan menargetkan pertumbuhan sekitar 15% pada *Top Line* maupun *Bottom Line*. Perseroan percaya akan mencapai target ini dan kedepannya akan menjadi lebih baik lagi. Strategi Perseroan sampai akhir tahun 2022 ini, yaitu akan tetap bekerja sama dengan distributor, dimana saat ini Perseroan telah memiliki distributor sendiri di lokal dan menambah cabang distributor yang berlokasi di Jawa Timur. Harapannya, distributor yang ada di lokasi tersebut akan dapat mencakup area yang lebih luas lagi, termasuk wilayah di Kalimantan dan Sulawesi. Kemudian untuk pasar global, Perseroan juga bekerja sama dengan distributor yang ada di berbagai negara agar dapat meningkatkan penjualan dengan melakukan promosi bersama dan kegiatan lainnya. Disamping itu, Perseroan juga secara konsisten akan melakukan *vertical integrated acquisition* dengan mencari, membeli atau mengakuisisi distributor yang ada di luar negeri dengan tujuan ke depannya, Perseroan dapat melakukan pengembangan pasar di luar negeri secara bebas di negara yang bersangkutan. Strategi untuk tahun 2023 akan sama seperti pada tahun 2022 dan tidak ada yang berbeda.

Demikian disampaikan. Atas perhatiannya, kami ucapkan terima kasih.

(c) What is the Company's strategy to achieve the target by the end of the year 2022 and 2023?

Response:

Conservatively, this year the Company targets growth of around 15% on the *Top Line* and *Bottom Line*. The Company believes that it will achieve this target and in the future it will be even better. The Company's strategy till end of 2022 is to continue to cooperate with distributors, where currently the Company has its own distributors in the local area and added distributor branches located in East Java. With expectation that the distributors in the mentioned location will be able to cover an even wider area, including areas in Kalimantan and Sulawesi. Then for the global market, the Company also cooperates with distributors in various countries in order to increase sales by conducting joint promotions and other activities. In addition, the Company will also consistently carry out vertical integrated acquisition by finding, buying or acquiring distributors abroad with the goal that in the future, the Company can develop markets abroad freely in the country concerned. The strategy for 2023 will remain same as in the 2022 and no changes.

Please be informed accordingly. Thank you for your kind attention.
